

EXPRESSING EMOTIONS
SINCE 1839

BACK TO SCHOOL COLLECTIONS 2022

This catalogue presents a wide range of products especially created and designed to make the kids' return to school easier, and to help older children organise themselves better. **We are also taking action against excessive plastic in the oceans by using recycled PET (RPET) in our entire range of textile products.**

A wide range of products catering for the tastes and needs of any student during their learning life.

#PLANET FIRST

At Miquelrius, we are aware of the importance of our planet, therefore, we are committed to taking care of and preserving it. With our actions, we wish to contribute to a world that is more sustainable and respectful with the environment.

To help preserve our planet, it is indispensable for society to be aware of this and for children to acquire sustainable habits from a young age.

RECYCLED POLYESTER - RPET

All the textile products in this catalogue are made of recycled polyester (RPET). We join the fight against excessive plastic in the oceans, recycling single-use products that take hundreds of year to degrade in the sea.

PET bottle

Plastic chips

Yarn

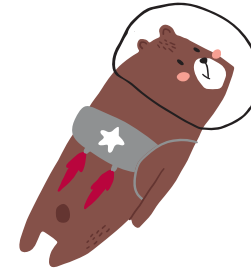

RPET Backpack

FSC

All the stationery products in this catalogue are certified with the FSC (Forest Stewardship Council) logo, a non-governmental accreditation and certification organisation that promotes appropriate environmental management, socially beneficial and economically viable of the world's forests.

In this manner, we can guarantee sustainable consumption of paper in our products.

TECHNICAL CHARACTERISTICS OF THE NOTEBOOKS

In 1989, we created the Notebook Miquelrius. The first notebook with coloured strips on the sides of the pages and micro perforations, so pages can be torn out cleanly and they can be separated to classify by subjects or projects.

HIGH QUALITY PAPER

All our notebooks are made with extra opaque paper, so the ink does not pass through to the other side of the page, facilitating writing on both sides. This paper offers an excellent satin finish for fast drying if ink. Our paper with sustainable fibres has FSC MIX CREDIT certification, guaranteeing that the paper comes from environmentally sustainable forests.

HIGHLY DURABLE COVERS

Made of COMPACT CARDBOARD, extra rigid, covered and laminated (mat or glossy). This combination gives the notebook consistency, so you can write without needing a support, and great durability, thanks to its lamination.

SIZES AND RULINGS

We offer different sizes to choose from. They also come with different rulings and numbers of sheets.

Ruling:

Sizes:

A4 (210 x 297 mm) microperforated, 4 holes
A5 (148 x 210 mm) microperforated, 2 holes
A6 (105 x 148 mm) microperforated, without holes

Sheets:

CLEANLY DETACHABLE SHEETS

The fine and uniform micro-perforation system guarantees easy and clean tear-off of sheets. When out of the notebook, the micro-perforation breakage point on the side of the sheet is almost invisible. An excellent manufacturing process that applies the exact pressure in the die-cutting to provide easily detachable sheets for quick and easy filing.

SPIRAL WITH THE COIL-LOCK SYSTEM

An aluminium spiral, resistant and elastic. Manufactured and dispensed continuously onto the notebook with the coil-lock closing system. A system that enables the notebook to open flat, but above all, avoids notebooks hooking up with each other, in a backpack or with clothes when in use.

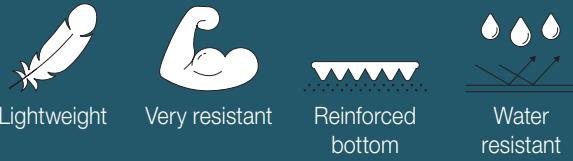

QUALITY OF PRINTING

The high-quality offset printing of our pages guarantees subtle and clean lines, thus highlighting the writing and facilitating reading. Our notebooks are the only ones with the lines in the same colour as the side strips; Our pages are especially designed for organised notetaking.

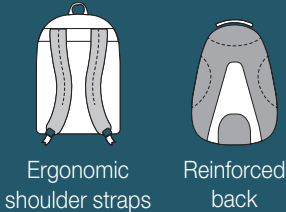

TECHNICAL CHARACTERISTICS OF THE BACKPACKS

The wide range of Miquelrius backpacks gives different options for the needs of each student at different times.

A series of models and collections that finds a balance between quality, functionality, ergonomics, and design.

Light and rugged: They do not add much weight to what the child must carry in the backpack, protecting its contents.

Ergonomic straps wide and with a reinforced back: Adapting to the child's back and stopping the straps digging in. They help in the weight distribution.

Multiple pockets and compartments that help to organise the contents of the backpack and distribute weight.

Doctors recommend that children carry backpacks not weighing more than 15% of their body weight, and that they use both straps to help distribute the weight uniformly. Therefore, we suggest that you choose the model carefully, taking into account the age, weight and height of the child.

Backpacks made of recycled polyester from PET (RPET) plastic bottles, to fight against the excess of plastic in the oceans.

Legal guarantee. MIQUELRIUS backpacks offer a two-year guarantee against product defects. Find all the details here:

MR16375 BACKPACK DISPLAY

Contents: 25 assorted units

Size of display: 390 x 1890 x 390 mm

TROLLEYS

If a backpack weighs more than 15% of the child's weight, it should be carried
on a trolley, and it is recommended to regularly change the arm pulling it. This
removable trolley is extendable and has silent PVC wheels.

MR17298 RED TROLLEY

MR18293 PINK TROLLEY

MR17297 BLACK TROLLEY

Size when folded: 273 x 540 x 243 mm deep
Size unfolded: Height 838 mm

See the video on how to
correctly place the backpack
on the trolley here:
